About What Works for Children's Social Care

What Works for Children's Social Care seeks better outcomes for children, young people and families by bringing the best available evidence to practitioners and other decision makers across the children's social care sector. We

generate, collate and make accessible the best evidence for practitioners, policy makers and practice leaders to improve children's social care and the outcomes it generates for children and families.

About CASCADE

The Children's Social Care Research and Development Centre (CASCADE) at Cardiff University is concerned with all aspects of community responses to social need in children and families, including family support services,

children in need services, child protection, looked after children and adoption. It is the only centre of its kind in Wales and has strong links with policy and practice.
