

North Tyneside Early Help and MASH - PINE Logic Model

Context
External environmental factors. This includes assumptions i.e., expectations or beliefs that underpin intervention success

Interventions
What activities are delivered to beneficiaries

Mechanisms
by which the activities lead to the outcomes.
This might include changes in attitudes, thinking or behaviour

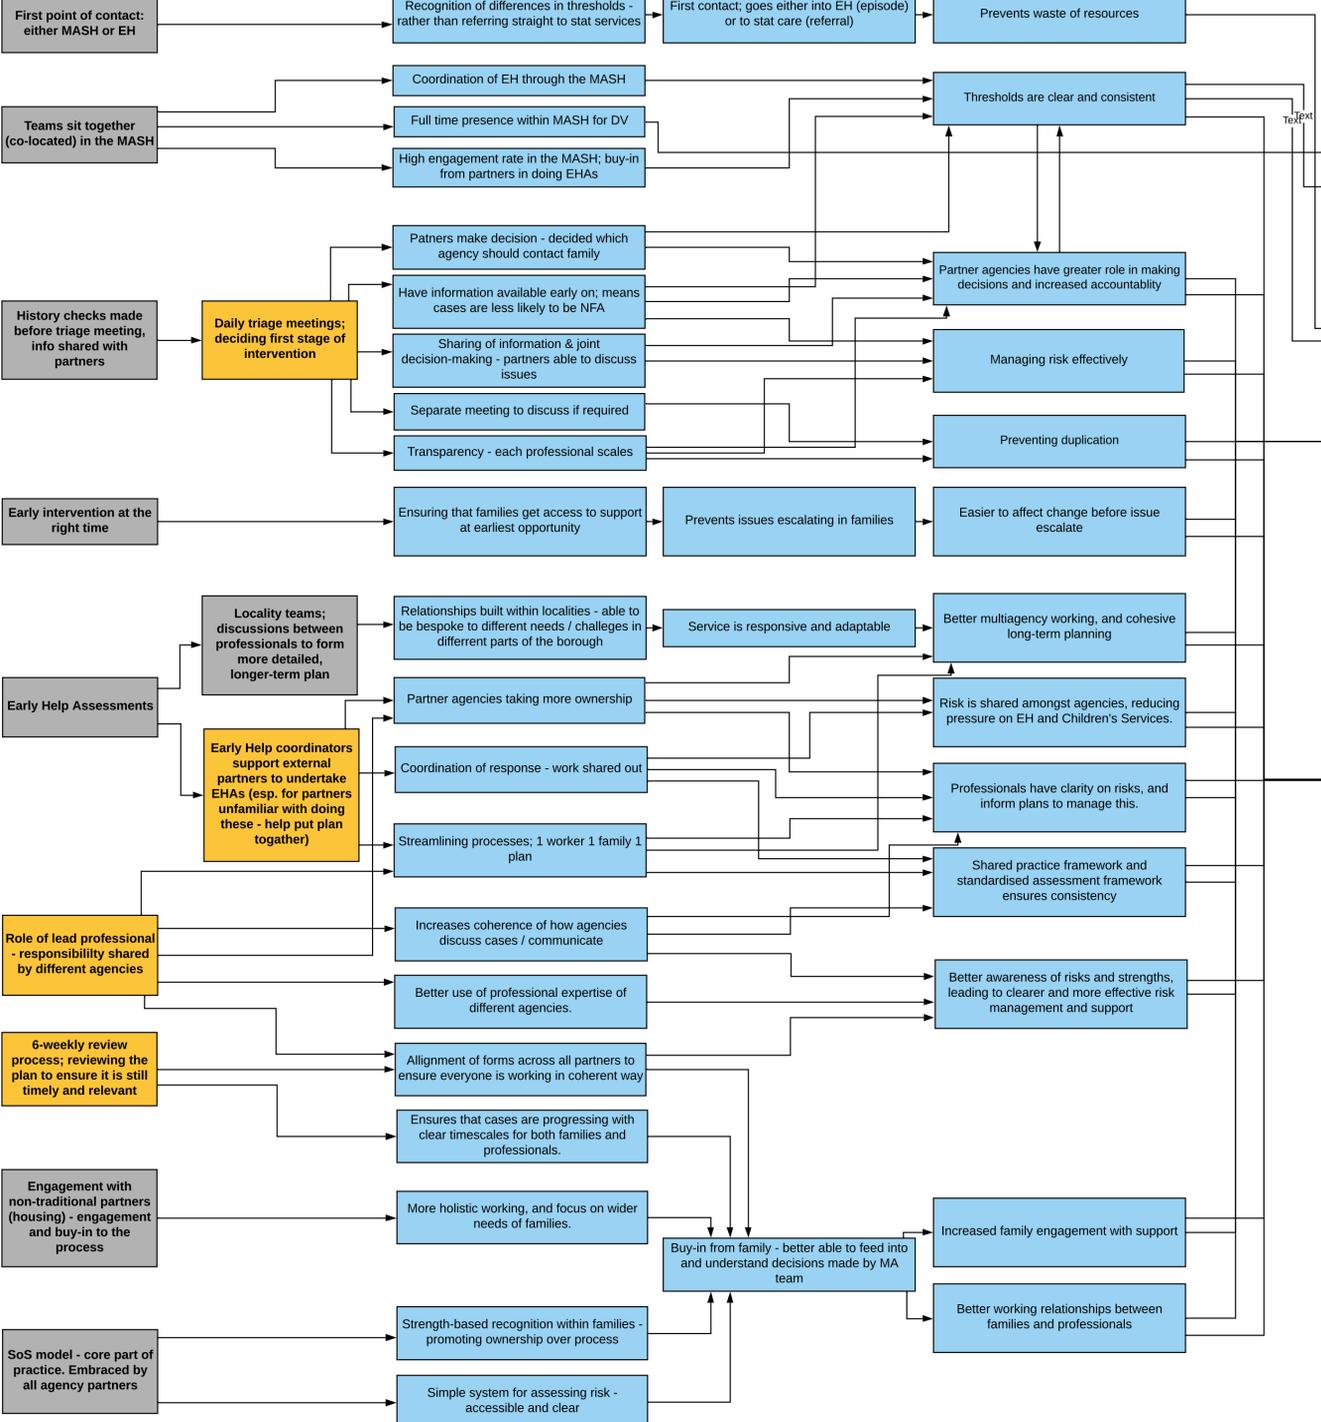

Outcomes
The changes you expect or hope to see because of the intervention

The Early Help (EH) service in North Tyneside has been running in its current form since 2016. The Early Help Hub was established within the broader MASH team in late 2017.

Contextual factor 1:
Buy-in from partner agencies is crucial to the success of the project, and North Tyneside report strong collaboration and information sharing between agencies.

Contextual factor 2:
Variety of challenges across the borough.

Contextual factor 3:
Continued investment in EH has taken place over the past few years, and it is hoped that this will continue. The team would like PINE to help them to evidence any positive changes that EH has made in North Tyneside.

- Specific Outcome Measures?**
- Troubled Families Outcomes Measures
 - Admin Data - e.g. referral rates, case escalation etc.
 - Feedback from partner agencies
 - Qualitative data from staff and families
 - Data on specific outcomes - e.g. police contacts, school attendance etc.
 - Other measures...

Unintended consequences
